

PETITION TO BAN FRACKING

When J.B. Pritzker ran for governor in Illinois, he ran on a platform of clean energy and said he opposed fracking. **Now Governor Pritzker can finally BAN FRACKING in Illinois!** We've known for years that fracking is an inherently unsafe process. It has made people sick, poisoned our air and water, and is fueling the climate crisis. Send a message to Governor Pritzker to tell him to ban fracking in Illinois. Visit ILBanFracking.org for more information.
